ALDUS™ M360+ LINERLESS WIDE-EDGE LABELLER

ALDUS™ M360+ LINERLESS LABELLER

The ALDUS™ M360+ premium wrap-around labeller delivers superior presentation and flexibility using advanced linerless labelling technology. Engineered for consistent, high-quality application across all popular tray sizes, it is ideal for skin-pack environments. Fully automatic and high-speed, the M360+ applies wrap-around, C-wrap and top linerless labels with precision, maximising efficiency, minimising waste, and enhancing shelf appeal.

KEY BENEFITS

EFFICIENT INLINE LABELLING

Seamlessly applies wrap-around linerless labels directly to sealed trays, streamlining the packaging line and boosting throughput.

VERSATILE LABEL APPLICATION

Easily handles top, side, C-wrap and full wrap labels, giving you the freedom to label a wide range of tray formats with the one solution.

OPTIMISED FOR FOOD PROCESSING

Designed for hygienic operation, high speeds and dependable uptime in demanding food production environments.

SMARTER, MORE SUSTAINABLE OPERATION

Fast changeovers, high output of up to 90 packs per minute, and smooth integration with weigh-price labellers reduce waste while maximising productivity.

PREMIUM SHELF PRESENTATION

CONSISTENT LABEL QUALITY

- Delivers a uniform, high-quality label finish on every pack, reinforcing brand trust and presentation.
- Helps ensure clear, compliant labelling for regulatory acceptance.

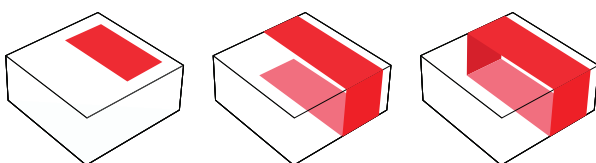

FLEXIBLE TRAY COMPATIBILITY

- Accommodates small to large tray formats, reducing changeovers and the need for multiple machines
- Ideal for skin packs and all popular retail tray styles, supporting product range expansion.

ENHANCED SHELF APPEAL

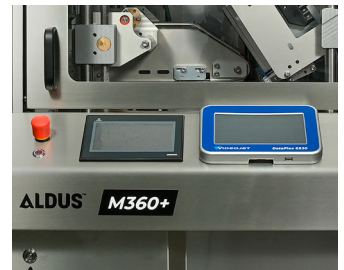

- Wrap-around labels maximise space for branding, messaging and product information.
- Creates a premium, eye-catching appearance that helps products stand out and sell faster.

TYPE OF LABELS

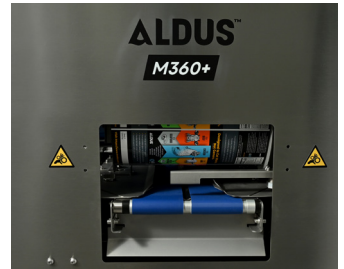

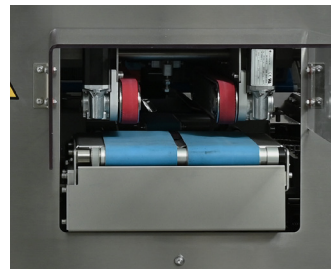

- Top, top and side, top and two sides, C-wrap and full wrap.

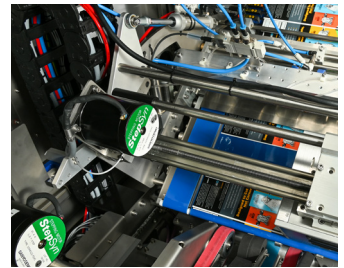

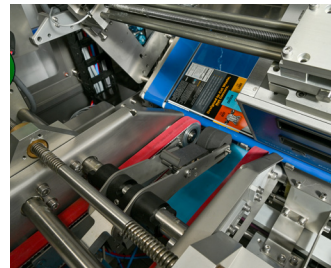

SPECIFICATIONS

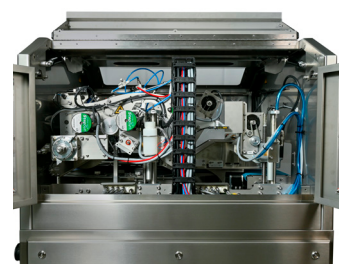

- Touchscreen control unit provides intuitive operation, available in multiple languages.

- Rollers and conveyors move trays and labels efficiently.

- Guillotine precisely cuts labels for application.
- Label reel holder accommodates up to 500mm width.
- Sensors detect product position and ensure accurate labelling.

- Front guard ensures operator safety and easy access.
